## Areas of Focus currently

* create drink by adding ingredients

* Add Drinks

* Welcome (How it works)
  - which ingredients?
  - Tell us....
  - wait

* make these:
  none?

* almost make:
  none?

## What are user goals?

- Determine which drinks they can make with ingredients they have on hand

- Determine which drinks they can almost make (is this helpful?)

- Add drinks of their own?
  - why?
    - save for future vs sharing

## Questions

? does the user want to type all things they have OR would they rather simply browse recipies

? Does the user want constant updates or a single commit?
